

## 1976 – Founding of HAGA

On the 1st April 1976 HAGA was founded by the businessman Norbert Rumpel and Christian Haupp, who looked after the technical aspects of the business. The company was set up to provide out all types of aluminium work in particular insulated windows, doors, conservatories, balconies and canopies. These items were produced for nearly three years in a double garage in Eichelsdorf until 1979 when the first purpose built production facility including offices and welfare facilities was built in Hofheim. In the same year the company name was changed from Haupp und Rumpel Gbr to HAGA Metallbau GmbH.

1979 - HAGA Metallbau GmbH, Industriestraße 3, 97461 Hofheim
