

1991 – Founding of HAGA Metallbau GmbH & Co. KG in Ottendorf

The strong growth of the company made the setting up of HAGA Metallbau GmbH & Co. KG in Ottendorf in Chemnitz on the 22nd January 1991 possible. With the help of Frank Weigl, the former co-owner and director, within three years the conditions were created to build a new facility for this company. By the 12th April 1994, aluminium elements were being produced in Lichtenau on a new site of 5,000m² with a production area of 1,400m².

1994 - HAGA Metallbau GmbH & Co KG, Gottfried-Schenker Str. 24, 09244 Lichtenau

In 1997 a further significant investment was made by HAGA by acquiring the offices and production plant of the insolvent metalwork company BSZ in Roemhild. With this purchase we gained a further 6,000m² of space and 32 employees.

1997 - HAGA Metallbau GmbH, Käthe-Kollwitz Str. 12, 98630 Roemhild
